

BOARD DIRECTOR ONLINE

OVERVIEW

To succeed today, organisations need board members with the skills and expertise to navigate volatility, disruption and complexity to deliver long-term value to their shareholders.

Board Director Online is a series of online training courses designed to help individuals and organisations to improve their board impact, performance and effectiveness with a flexible learning environment.

Developed by experts in their field, the courses cover a range of specific topics to meet the particular needs of existing, aspiring and newly appointed board members.

Supported by the latest digital technology, our modern e-learning solution delivers digestible, interactive and engaging content, providing a highly motivated learning environment. Each course can be started and finished at any time, providing participants with a flexible learning experience.

Participants will also have the opportunity to check their knowledge and skills gains with regular assessments and scenarios throughout the course.

CONTENTS:

- The Role of a Board Member
- Essential Financial Skills for Board Members
- Culture, Strategy and the Board
- The Role of the Board

COURSE BENEFITS:

- Improve board effectiveness
- Increase confidence during crisis
- Make smarter strategic decisions to deliver long-term value
- Assess the financial health of the company
- Gain expert insights
- Check your knowledge
- Learn in a flexible way

Courses can be completed any time either as a full 16-hour programme or as individual 4-hour courses. Each course counts as 4 CPD hours of learning.

ESSENTIAL FINANCIAL SKILLS FOR BOARD MEMBERS

OVERVIEW

This course is designed for existing and aspiring board directors who are not from a finance background and need to build the essential knowledge in the field to be effective and drive company's performance.

It will provide a solid foundation in finance and accounting from a board-level perspective and will focus on the methods of raising finance, reporting financial information, considering investments, valuations and acquisitions as well as the best practices of working with both internal and external auditors.

Throughout this course, participants will also examine some of the key challenges and learn how to overcome them.

CONTENTS:

- Background and accounting thresholds
- Key financial statements
- Key ratios
- Off-balance sheet financing
- Management and financial accounts
- Business funding and investment appraisal
- Shareholder value
- Working with auditors

COURSE BENEFITS:

- Understand the key financial statements that you are liable for as a board member
- Understand methods of raising finance and where they are appropriate
- Understand, assess and oversee risks

This course counts as 4 CPD hours of learning and may be taken individually or as part of the full 16-hour programme.
